

JIS SYSTEM company profile

commitment to service

about us

JIS SYSTEM was incorporated in 1996. We started off as an equipment supplier and had since undertaken various small to medium scales turn key projects in material handling and quality checking systems. We supply our products and services throughout East and West Malaysia, Indonesia, Singapore and Thailand. Our annual turnover is in the region of RM 4.0 million. Our staffs are well trained with many years of working experience and are committed to provide the necessary support and service to fulfill the requirements of our customers.

Below are the product brands that we are linked to and we are continuously updating our range of products so we can meet the ever-changing requirements of our customers.
